Percentage : 85.34%

Secondary School (Std. 10),

Ashadeep Group of School

2017 – 2018 | Surat, India

Percantage : 90.67%

Achievments

Hackerrank ⬀

- 4-Star in C++ Competitive coding

Leetcode ⬀

- 100+ Problems Solved

Professional Experience

Software Engineer, *MLVeda*

01/2024 – 03/2025 | Ahmedabad, India

- Replaced a third-party application with a custom-coded solution for managing custom add-on items, improving efficiency and reducing dependency on external services.
- Designed and built various reusable UI components with HTML, CSS, and JavaScript to enhance website functionality and user experience.
- Optimized Shopify site performance by improving webpage loading speed, enhancing user engagement, and ensuring better Core Web Vitals scores.

Projects

YMS Frying Solutions, *ReactJs* ⬀

- Built a React.js website with Web3Forms integration for seamless form submissions, ensuring a modern and responsive UI.
- Set up domain, professional email via Google, and designed a custom logo, providing a complete digital presence for the client.

Denali Electronics, *Custom Add-On Items* ⬀

- Replaced a third-party app with a custom-coded solution supporting thumbnails, radio buttons, dropdowns, required/pre-selected options, and dynamic displays.
- Customized the Add to Cart process to include add-ons with the main product, ensuring proper removal logic and individual add-on management.

SendIt, *Flutter* ⬀

- A automated location based cloud media organization mobile application using Flutter.
- Automatic album creation based on city name and arrange media files accordingly.
